II FUNDAMENTOS DE DERECHO

Primero.- La Ley Orgánica de Telecomunicaciones – LOT, publicada en el Registro Oficial No. 439 de 18 de febrero de 2015, crea a la Agencia de Regulación y Control de las Telecomunicaciones – ARCOTEL, como entidad encargada de la administración, regulación y control de las telecomunicaciones y del espectro radioeléctrico y su gestión, así como de los aspectos técnicos de la gestión de los medios de comunicación social que usen frecuencias del espectro radioeléctrico o que instalen y operen redes.

Segundo.- Los artículos 13 y 37 de la LOT, definen los títulos habilitantes que la ARCOTEL debe otorgar, para la operación de una red privada y para el uso del espectro radioeléctrico correspondientes a un registro y una autorización, respectivamente; el artículo 51 de la ley ibídem establece que entre los títulos habilitantes que se otorguen por medio de adjudicación directa para el uso de frecuencias del espectro radioeléctrico, constan los correspondientes a redes privadas; en tanto que el artículo 56 establece que los títulos habilitantes para el uso y explotación del espectro radioeléctrico tendrán la misma duración del título habilitante que se encuentre asociado y se integrarán en un solo instrumento, así mismo el artículo 37 numeral 2 de la LOT *“Autorizaciones: Para el uso y explotación del espectro radioeléctrico, por las empresas públicas e instituciones del Estado”*.

Tercero.- La LOT, en su artículo 144, dentro de las competencias de la ARCOTEL, incorpora la siguiente: *“11. Establecer los requisitos, contenidos, condiciones, términos y plazos de los títulos habilitantes.”*, otorgando en el artículo 148 a la Dirección Ejecutiva, las atribuciones de *“3. Dirigir el procedimiento de sustanciación y resolver sobre el otorgamiento y extinción de los títulos habilitantes contemplados en esta Ley, tanto en otorgamiento directo como mediante concurso público, así como suscribir los correspondientes títulos habilitantes, de conformidad con esta Ley, su Reglamento General y los reglamentos expedidos por el Directorio.”*, *“16. Ejercer las demás competencias establecidas en esta Ley o en el ordenamiento jurídico no atribuidas al Directorio.”*.

Cuarto.- La LOT, en sus Disposiciones Transitorias señala: *“Segunda.- Los títulos habilitantes cuyo otorgamiento se encuentren en curso al momento de la promulgación de la presente Ley se tramitarán siguiendo los procedimientos previstos en la legislación anterior ante la Agencia de Regulación y Control de las Telecomunicaciones. No obstante, la Agencia de Regulación y Control de las Telecomunicaciones establecerá los contenidos, condiciones, términos y plazos de dichos títulos, de conformidad con lo dispuesto en la presente Ley.”* (...) *Quinta.- La Agencia de Regulación y Control de las Telecomunicaciones, dentro del plazo de ciento ochenta días contados a partir de la publicación en el Registro Oficial de la presente Ley, adecuará formal y materialmente la normativa secundaria que haya emitido el CONATEL o el extinto CONARTEL y expedirá los reglamentos, normas técnicas y demás regulaciones previstas en esta Ley. En aquellos aspectos que no se opongan a la presente Ley y su Reglamento General, los reglamentos emitidos por el Consejo Nacional de Telecomunicaciones se mantendrán vigentes, mientras no sean expresamente derogados por la Agencia de Regulación y Control de las Telecomunicaciones.”*.

Quinto.- De acuerdo con lo dispuesto en el artículo 13 de la Ley Orgánica de Telecomunicaciones, las redes privadas son aquellas utilizadas por personas naturales o jurídicas en su exclusivo beneficio, con el propósito de conectar distintas instalaciones de propiedad o bajo su control. Su operación requiere de un Registro a través de un Acto Administrativo motivado, y de acuerdo al artículo 37 numeral 2 y artículo 50 de la Ley ibídem, para el uso de frecuencias se otorgarán títulos habilitantes conforme lo dispuesto en dicha Ley, sus reglamentos y los requisitos exigidos a tales efectos; a dicho efecto, es procedente emitir un título habilitante unificado, acorde con el objetivo No. 16, previsto en el artículo 3 de la LOT: *“simplificar procedimientos para el otorgamiento de títulos habilitantes y actividades relacionadas con su administración y gestión”*.

Sexto.- La red privada comprendida en el presente título habilitante y acto administrativo, se implementará con el propósito de conectar distintas instalaciones de su propiedad o bajo su control, para satisfacción de las necesidades propias de su titular, excluyendo la prestación de servicios de telecomunicaciones a terceros, con lo cual, es procedente el otorgamiento de este tipo de habilitaciones a personas jurídicas de derecho público pues se encuentra dentro de lo previsto en los artículos 13, 37 número 2 y artículo 41 de la LOT.

Vistos los citados Antecedentes de Hecho y Fundamentos de Derecho, la Dirección Ejecutiva de la Agencia de Regulación y Control de las Telecomunicaciones, a través de la delegación conferida mediante Resolución Nro. ARCOTEL-2015-00132 al Coordinador Técnico de Regulación de la ARCOTEL,

Asunto: Concesión de 4 frecuencias para la UNIDAD DE NEGOCIO CELEC EP - TRANSELECTRIC

Señora Ingeniera
Ana Vanessa Proaño De La Torre
Directora Ejecutiva
AGENCIA DE REGULACIÓN Y CONTROL DE LAS TELECOMUNICACIONES
En su Despacho

De mi consideración:

CELEC EP a través de su Unidad de Negocio TRANSELECTRIC se encuentran ejecutando el proyecto de construcción del Sistema de Transmisión Eléctrica a 500 kV con el cual se pondrá al servicio del país la energía eléctrica generada por las Centrales Hidroeléctricas Coca Codo Sinclair, Sopladora, entre otras; asimismo, CELEC EP - TRANSELECTRIC tiene la responsabilidad de la expansión, operación y mantenimiento del Sistema Nacional de Transmisión y garantizar el transporte eficiente de energía eléctrica.

Para mejorar el desempeño de los trabajos mencionados, CELEC EP - TRANSELECTRIC realizó la adquisición de un importante número de radios móviles y portátiles que trabajan en las bandas VHF y UHF.

El personal de CELEC EP - TRANSELECTRIC se desplaza continuamente por todo el país para cumplir con trabajos programados y emergentes, con la finalidad de solucionar cualquier evento en su red de transmisión de energía, en el menor tiempo posible, para lo cual hace uso de los radios y consecuentemente, se necesitan frecuencias que sean las mismas en todas las provincias (frecuencias nacionales), lo cual permitirá mayor agilidad en los trabajos ya que no sería necesario reprogramar la frecuencia de los radios al pasar de una provincia a otra.

Por lo expuesto, solicito se autorice la concesión de las siguientes frecuencias, para CELEC EP - TRANSELECTRIC durante 5 años:

- Tres (3) frecuencias VHF en cada una de las 23 provincias, es decir, 3 frecuencias VHF en el territorio continental.
- Una (1) frecuencia UHF en cada una de las 23 provincias, es decir, 1 frecuencia UHF en el territorio continental.

Se anexan los documentos habilitantes requeridos, salvo los indicados debido su tamaño superior a 2Mb:
